

what is sptv.org

The sptv.org is a project initiated and run by Casa Gontz.

SPOILER TV is pure diversity. SPOILER TV is the exact opposite of regular TV. It shows videos and films that have been worth producing, eluding the fate of becoming commissioned clichés. SPOILER TV thrives on the diversity of a digitalized culture, a large creative resource evident in its content. It creates a non-commercial space outside cheap mainstream programs. SPOILER TV is a product of Internet culture and will develop accordingly.

SPOILER TV is a sample of that creative intellectual potential out there - wherever that is.

Spoiler TV should become the first open source internet TV. Everybody can join us and become a broadcaster. The sptv should develop itself in a major network of broadcasters from around the world, where everybody has his broadcast hours.

SPTV broadcasts or rather streams 24 hours a day, 7 days a week, 365 days a year film and video material that has not been commercially exploited. Live programs and VJ acts will be alternating with very diverse programs of short films, documentaries, underground music videos and video art. The archive allows for access to this material after broadcasting, and will be available as stream on demand.

After one year the platform will be given to another artist to run it and develop further, by so, ensuring the freshness of the project.
